

## Application for Reiki Mastership

Name:

Phone:

Address:

Email:

How are you currently using Reiki in your life or business currently?

What is your reason in wanting to become a Reiki Master? (This can be personal, professional or spiritual.)

What is your intention on how you plan to use Reiki going forward in your life and/or business?

## Requirements for Reiki Mastership

You can complete more sessions but these are the minimum requirements. The reason for these requirements is to expose you to different energies and how to work with them. It is also to prepare you for the additional attunement energy that you will experience once you become a Reiki Master.

- ▣ Three in person sessions. These can be with people you know but do need to be three separate sessions. These can be table or chair boost sessions.
- ▣ Three long distance sessions with three different people.
- ▣ One animal session.
- ▣ On-going self-Reiki.
- ▣ Two testimonials: one in person and one long distance. These testimonials are also very validating to the practitioner for the work they have done.
- ▣ Case study of at least one in person session and at least one long distance session. This would include the overall experience of the client and the practitioner, i.e., visions, memories, emotions, etc. Case studies are to be completed and turned in at least one month before class.
- ▣ Complete the 4-day Mastership Retreat for Certification.
